

StarCharge

Mobility Electrification, Energy Digitalisation

2024

StarCharge: A Leader in EV Charging Infrastructure and Microgrid Solutions

Ranked Global No. 1 EVSE Supplier by Ten-year Cumulative Sales Volume from 2014 to 2023

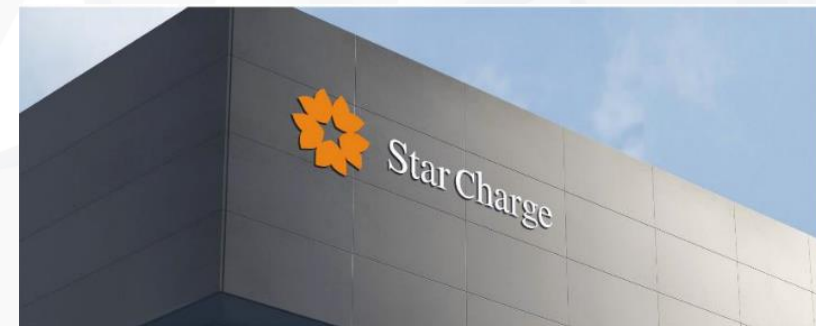

Certified by Frost & Sullivan in March 2024

Our Mission

*Co-building and Advancing a World-class Mobile
Energy Ecosystem for a Carbon-Neutral World*

We aim at

*Innovating to Mobilize Energy Revolution
Evolving to a Sustainable Future*

History

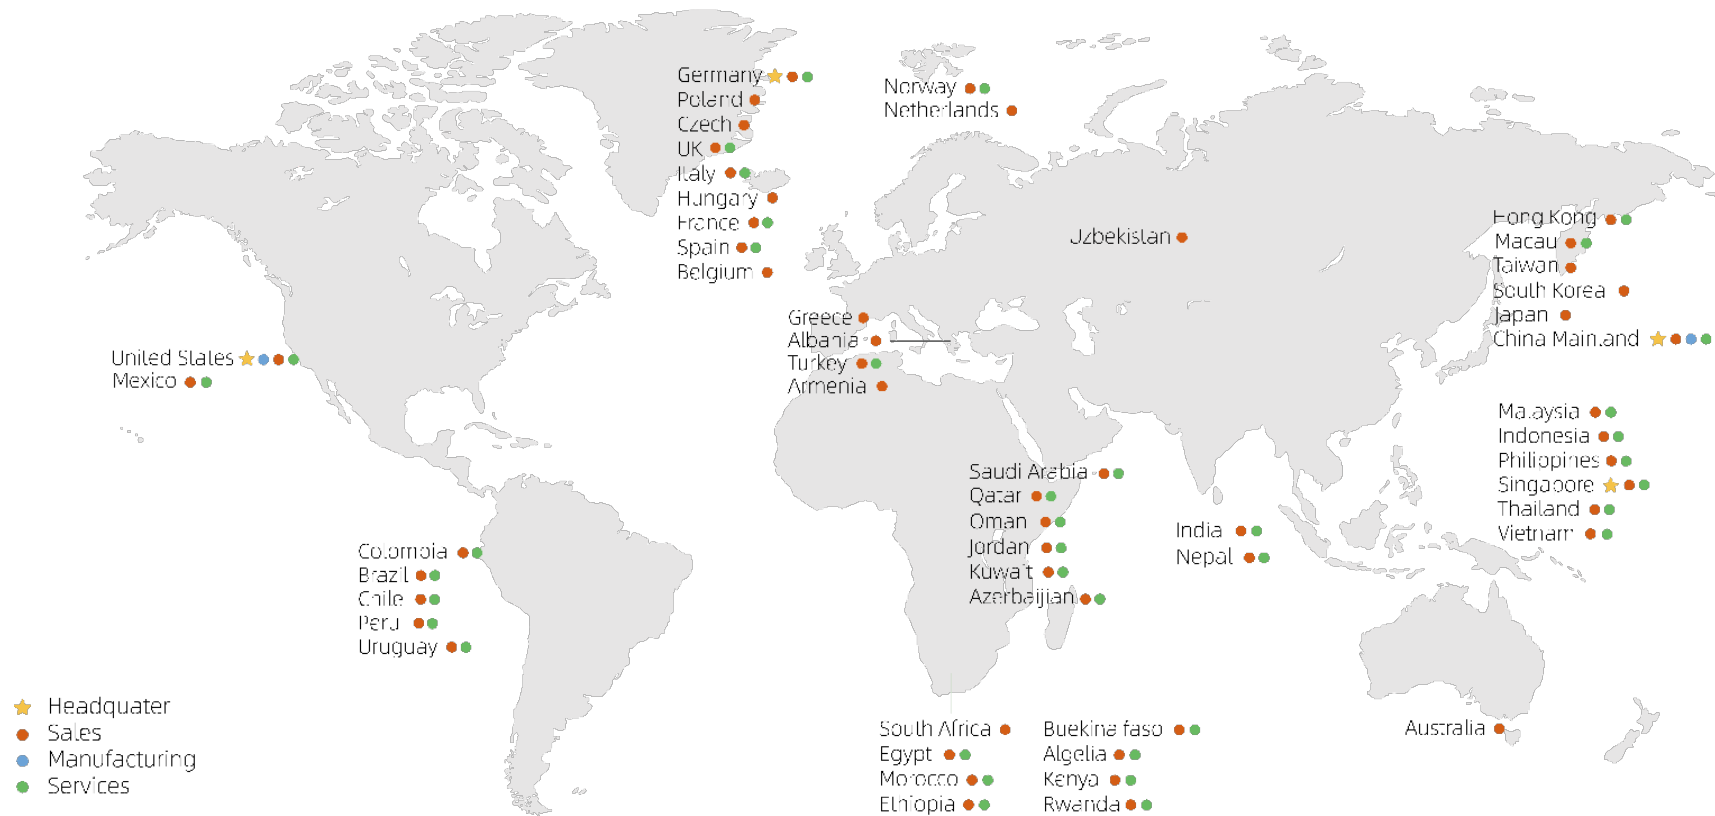

- >2014 StarCharge was established.
- >2016 StarCharge became supplier for Daimler, Porsche, Volkswagen, Jaguar and Land Rover etc.
- >2018 StarCharge teamed up with Hubei to build a worldwide charging platform.
- >2019 StarCharge, Volkswagen, FAW, and JAC joint venture was established.
- >2020 StarCharge Europe & StarCharge APAC was established.
- >2021 StarCharge America was established.
- >2023 StarCharge Ohio Factory was set up.

Global Operations

Shipped over 2 million EV chargers to 60+ Countries

Served 13K+ Customers Globally

International Certifications

- ISO 9001 2015 Quality Management Systems
- ISO 14001 2015 Environmental Management Systems
- ISO 45001 2018 Occupational Health and Safety Management Systems
- SA 8000 Social Accountability 8000 International Standard
- ISO/IEC 27001 2013 Information Security Management Systems
- IECQ QC080000 2017 Hazardous Substance Process Management (HSPM) System
- ISO 50001 2018 Energy Management Systems
- ISO 14064 Greenhouse Gases
- ISO 14067 Greenhouse Gases — Carbon Footprint of Products
- ISO/IEC 27701 2019 Privacy extension to ISO/IEC 27001

SUSTAINABLE DEVELOPMENT GOALS

Continuous Investment in Manufacturing Facilities to Meet Growing Client Needs

- ❖ State-of-the-art Manufacturing Facilities
- ❖ Comprehensive Quality Management System
- ❖ Environmental Friendly Production Process

Innovating to Mobilize the Energy Revolution

Cloud-Based Management Platform- EV Charging, Energyment, Microgrid

Energy

- ▣ Residential
- ▣ Commercial
- ▣ Industrial

Charging Infrastructure

- ▣ AC Chargers
- ▣ All-in-One DC Chargers
- ▣ Split Charging Systems

Advancing Low-Carbon Microgrid Solutions

Uniting Renewable Energy, Storage, EVs, and Cloud Platforms

A Versatile EV Charging Product Portfolio: from kW to MW

AC Charger

residential

1

Single House, Multi-dwelling

DC All-in-One Charger

Destination

Workplace, Hospitality, Retail, Car Parking

DC Split-Type Charging System

Public Fast Charging

Driving Through Public Charging Station: City, Highway

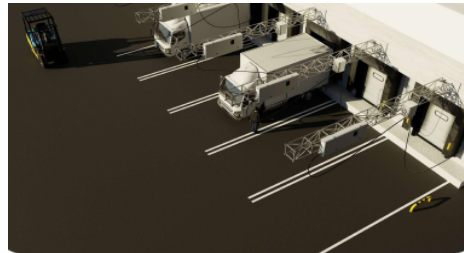

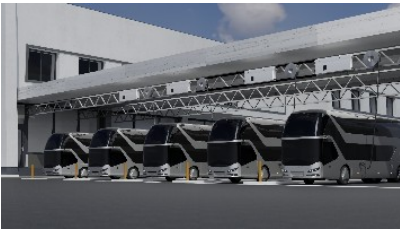

Fleet & Depot Charging

Light, Medium, and Heavy-Duty Commercial Vehicles

Tailored Solutions : More Power, Greater Flexibility, Faster Returns

- ▣ State-of-the-Art EV Charging Solution
- ▣ Energy Management System
- ▣ Cloud Management Platform

Enabling Low-Carbon Lifestyles

- ❑ Solar Power Self-consumption
- ❑ Backup Power
- ❑ V2H/G
- ❑ Green Charging

Integrated and Digitalized Cloud-Based Platform from Device to Application

Delivered via Customized or Managed Cloud Solutions – Optimizing Operational Efficiency and Streamlining Management Across All Levels.

Worry Free Service Offering

01

Standard Warranty

StarCharge's equipment are backed by a standard warranty with commitment to customer success

02

SLA based Services

Service level agreements (SLA) can optimize equipment uptime and support faster remote and on-site response times

04

Lifecycle Services

Full scope service and continuous support towards SC product along with its lifetime is offered to maximize the performance

03

eNexus Services

Equipment connection to backend is essential to networked charging, enabling service level agreements and optimizing operational uptime.

05

Managed Services

A complete range of the operation and operation services of the system is offered to enable easy assets management and business growth

Peace of Mid Global Service Network

Join us in this journey
towards a **Sustainable** future

Thank You.

Connect the World. Connect the People.
